

August Webinars

Presented by Jeff S. Holmes, P.E. CSI, CDT

August 6 - Troubleshooting Masonry Construction - 12 pm CDT

An overview of procedures for identifying and preventing problems, and maintaining and restoring the appearance and functionality of masonry and the masonry veneer building envelope.

August 7 - Managing Condensation and Water Intrusion in the Real World - 12 pm CDT

Description: Window-opening air and water leakage has been a difficult problem for the construction industry. This course evaluates building failures, conventional construction approaches, and new developments in waterproofing techniques to show a path forward for designers seeking higher-performing wall assemblies.

August 13 - Below Grade & Plaza Deck Waterproofing - 12 pm CDT

This presentation provides an overview of the construction of below grade and plaza deck waterproofing. The training will cover the various waterproofing techniques and define many of the terms associated with waterproofing..

All presentations will begin at 12 noon CST.

August Webinars

Presented by Jeff S. Holmes, P.E. CSI, CDT

August 14 - Introduction to Existing Building Retrofits - 12 pm CDT

This program introduces building retrofits as a method to achieve green building standards by adapting existing structures. While a building retrofit may have several types of interventions, participants will learn how effective air sealing will improve overall occupant comfort, health, and safety. This includes a detailed look at sources of air leakage and the various methods to address this infiltration. Several real-world examples will demonstrate the importance of identifying source of air leakage, investigating existing conditions, and proper detailing.

August 27 - New Rules for Construction Clean Down - 12 pm CDT

An overview of the importance of proper cleaning in new construction. The advantages of proprietary cleaners and proper cleaning techniques are covered to show the value they provide in producing a great masonry project.

August 28 - Restoration Cleaning: Turning Back the Hands of Time - 12 pm CDT

A comprehensive look at the tools and techniques of cleaning historic architecture. "Restoration Cleaning" categorizes types of contaminants. It compares and contrasts abrasive, water and chemical cleaning. The program concludes with 10 "must know" tips for successful restoration cleaning.

All presentations will begin at 12 noon CST.
